# OVERVIEW

## New Resources for the Integrated Occupational Program

This resource list for the Integrated Occupational Program (IOP) contains instructional materials that have been authorized for use in Alberta schools. The list includes resources for IOP, grades 8 – 11/12 English Language Arts, Mathematics, Science, Social Studies, Career Development and Universal Strategies. Alberta Learning selects and authorizes the best possible instructional materials for the implementation of approved programs of study. Teachers are encouraged to select resources according to the reading levels of students. The resource authorization categories are **student basic**, **student support** or **authorized teaching**, and the status is noted for each resource.

**Student Basic** learning resources are those student learning resources authorized by Alberta Learning as the most appropriate for addressing the majority of outcomes of the course(s) or substantial components of the course(s); or the most appropriate for meeting general outcomes across two or more grade levels.

**Student Support** learning resources are those student learning resources authorized by Alberta Learning to assist in addressing some of the outcomes of the course(s) or components of the course(s); or to assist in meeting the outcomes across two or more grade levels.

**Authorized Teaching** resources are those teaching resources identified as the best available resources to support the implementation of programs of study and courses; they may be teacher guides to accompany student resources or teacher professional resources. The authorized teaching guides are listed with the student resources.

Subject, authorization status and title in alphabetical order organize the list of these resources. Grade level(s) are indicated beside each title.

### Note:

Alberta Learning strongly recommends that teachers read all selections in the student resources and all activities in the teacher guides prior to using them with students. Careful consideration should be given to the sensitivities of both the student audience and the community, and reading levels of students.
